SUMMARY

In conclusion, my one-year journey as a software developer has been marked by continuous learning, collaborative endeavors, and meaningful contributions to various projects. I have not only deepened my technical proficiency in [specific technologies] but also refined my problem-solving skills and embraced the agile ethos of iterative development.

EXPERIENCE

Software Developer

McKinsol Consulting Inc.   **January 2023 -December 2023, Noida, Uttar Pradesh, India · On-site**

• Designed and developed responsive, cross-browser-compatible websites using HTML, CSS, and JavaScript.

• Created visually appealing user interfaces with a focus on user experience and accessibility.

• Demonstrated expertise in front-end frameworks such as Angular .

• Built and maintained interactive web applications, leveraging the capabilities of these frameworks.

• Implemented responsive design techniques to ensure optimal performance on various devices and screen sizes.

• Proficient in using popular CSS frameworks like Bootstrap or Foundation to expedite development and maintain consistency in designs.

Internship

The Sparks Foundation   **August 2021 -December 2023, Remote**

• Design and develop a user-friendly donation website using HTML, CSS, and JavaScript.

• Create a visually appealing and engaging homepage that highlights the purpose and impact of the donation.

• Provide various payment options, such as credit/debit cards, PayPal, or other popular payment providers.

• Include a donation form that allows users to enter their donation amount and select a payment method.

• Integrated payment gateways to facilitate secure online transactions, including credit card processing and digital wallets.

PROJECTS

E-Commerce Website

Mckinsol Consulting Inc. • September 2023 - October 2023

• Coordinate with the web development team to design UI for client websites using HTML, JavaScript, and AngularJS.

• Design, develop, and code web applications for customer accounts, which includes debugging issues.

• Create responsive designs for mobile applications, built wireframes, and developed prototypes for web development projects.

• Developed a user-friendly product catalog with search and filter options for easy product discovery.

IDMX

Mckinsol Consulting Inc. • April 2023 - September 2023

• SAP Master data across various domains, including Article Master, Vendor Master, Customer Master, Material Master, BOM, Routing, Cost Center, Profit Center, and GL Account.

• SAP Master Data Management with Intelligent Data Management Express (iDMX), McKinsol's cutting-edge proprietary tool.

• With iDMX, you can effortlessly handle CRUD operations (Create, Read, Update, and Delete).

Bus Reservation System

College Project • February 2022 - June 2023

• Generate printable tickets with relevant details such as passenger information, seat number, and journey details.

• Developed a comprehensive bus reservation management system to streamline ticket booking and bus management processes.

• Developed an administrative panel for bus operators to manage buses, routes, schedules, and ticket reservations.

• Utilized MySQL for data storage, including user accounts, bus schedules, reservations, and payment records.

• Enabled passengers to view seat availability, select preferred seats, and reservations.

Angular Chatting App

Lets Grow More • May 2022 – July 2022

• Developed a real-time chatting application using Angular for front-end development.

• Stored and displayed message history, allowing users to scroll back through their conversations.

• Implemented user authentication and security measures to protect user data and communications.

• Designed the app to be responsive and compatible with both mobile and desktop devices.

• Implemented user registration and login functionality to ensure secure access to the chat app.
