SUMMARY

In conclusion, my one-year journey as a software developer has been marked by continuous learning, collaborative endeavors, and meaningful contributions to various projects. I have not only deepened my technical proficiency in [specific technologies] but also refined my problem-solving skills and embraced the agile ethos of iterative development.

EXPERIENCE

Software Developer
McKinsol Consulting Inc.   January 2023 -December 2023, Noida, Uttar Pradesh, India · On-site

•Developed responsive, cross-browser-compatible websites with HTML, CSS, and JavaScript, emphasizing visually appealing user interfaces prioritization user experience and accessibility, showcasing proficiency in front-end frameworks like Angular, and utilizing popular CSS frameworks such as Bootstrap or Foundation for streamlined development and design consistency.

Internship
The Sparks Foundation   August 2021 -December 2023, Remote

•Design and develop a user-friendly donation website with HTML, CSS, and JavaScript, featuring an engaging homepage highlighting the donation's purpose and impact, diverse payment options (credit/debit cards, PayPal, etc.), a donation form for amount selection and payment method, and integrated payment gateways for secure online transactions, encompassing credit card processing and digital wallets.

PROJECTS

E-Commerce Website
Mckinsol Consulting Inc. • September 2023 – October 2023

•Collaborated on client website UIs using HTML, JavaScript, and AngularJS, developed and debugged web applications for customer accounts, created responsive designs and prototypes for web projects, and designed a user-friendly product catalog with search and filter options for client product discovery.

IDMX
Mckinsol Consulting Inc. • April 2023 – September 2023

•Managed SAP Master data across domains such as Article, Vendor, Customer, Material, BOM, Routing, Cost Center, Profit Center, and GL Account, utilizing McKinsol's proprietary tool, Intelligent Data Management Express (iDMX), for seamless CRUD operations.

Bus Reservation System
College Project • February 2022 – June 2023

•Created printable tickets containing passenger information, seat numbers, and journey details, implemented a bus reservation management system for client ticket booking and bus management, designed an administrative panel for bus operators to oversee buses, routes, schedules, and reservations using MySQL for data storage, and facilitated passenger seat selection and reservations.

Angular Chatting App
Let's Grow More • May 2022 – July 2022

•Built a real-time chat application with Angular for front-end development, featuring message history storage, user-friendly scrolling through conversations, robust user authentication, and security measures for data protection; designed for responsiveness and compatibility with mobile and desktop devices, including user registration and login functionality for secure access.

EDUCATION

Bachelor of Technology in Computer Science Engineering
Shri Ram Swaroop Memorial University • Lucknow • 2023 • 7.96

Higher Secondary Certificate
Minor in PCM • S.R Memorial Inter College • Lucknow • 2019 • 7.68

Secondary School Certificate
S.R Memorial Inter College • Lucknow • 2017 • 7.6
